M. CHERNEY

A Smokeless and Odorless Broiler for Home Use

One of the greatest improvements made in years in the family range is the device furnished with Cole's Hot Blast Range for broiling meats, game, fish and ham slices. This device consists of a broiling box which is set before an upright grill in the front of the range which forms the front of the fire box. The odor and smoke from broiling is carried through the range and up the chimney. With it is modern method of broiling the juices in the meat are saved so that none of the flavor is lost. No grease can drip on the coals and the smoke and gas from the fire cannot come in contact with the meat and taint it.

This is a great improvement which can be used on Cole's Hot Blast Range. It is a great improvement which can be used on Cole's Hot Blast Range.

"The Life is in the Blood"—"She visited Upon the Children Unto the Third and Fourth Generation."

MID-Ocean, October 8.—Pastor Russell is en route for his fall visit to his London charge, full of vigor. Crossing the ocean loses no time for him. He is accompanied by his stenographer, Mr. Butterfield, and through the newspapers reaches weekly to about twelve millions in the United States, Canada, Great Britain and Australia. His text today was, "For the life of the flesh is in the blood, and I have given it to you upon the altar as an atonement for your souls."—Leviticus xvii, 11.

The trend of all scholars within the past forty years in particular has been away from the Bible. Those few who still contend for the Bible concede much to the Higher Critics and merely strive to retain a hold upon certain strands of truth. The Bible is suffering at the hands of Critical scholars, or perhaps we should better say, Christendom is suffering from letting loose its hold upon the Bible. The Bible theory, that all the sin and death manifest in the world resulted from Adam's disobedience, is now generally denied. Consequently those who still preach a forgiveness of sins and an escape from the penalty of sin are in the minority. And those who admit that the death of Jesus was necessary as a sin-offering, the Just for the unjust, are extremely few.

Darwin's Evolution theory, that man sprang from a monkey parentage and has been evolving higher and higher for thousands of years, finds apparent support in the rapid growth of intelligence during the past fifty years. But those who heed the Bible find a more satisfactory explanation in its teaching, that we are in the dawning of a New Dispensation—the Messianic period so long promised of God as the time in which all the families of the earth will be blessed.

The Flood of Atonement

The Bible theory of man's sin and condemnation to death and of a redemption of Adam's race from the power of death by the blood of Jesus is one consistent narrative. Because one man alone was the original sinner and the sentence came by one, therefore it was possible for Divine mercy to arrange that by the sacrifice of the Righteous One, the Just for the unjust, the entire race of Adam might be judicially freed from the death sentence and be permitted to have a resurrection from the dead and the opportunity of recitation and to approve themselves to God for everlasting life.

This, the Bible theory, lays the whole stress of salvation upon the work of our Redeemer. By it a way of life through resurrection and restitution has been opened up. This is the meaning of our text and is fully concurred in by the Apostle, who says, "Alas, all things are by the law merged with blood; and without shedding of blood is no remission" of sins.

Latest Deductions of Science

Scientists now learn not only that different species will not amalgamate, but that different breeds of the same species crossed cannot be unmixed, but will revert again to their originals in the third or fourth generation. Undoubtedly this was what troubled Mr. Darwin in his rearing of fancy breeds of pigeons and his inability to maintain the fancy varieties. The same principle is found everywhere at work. Different varieties of peas crossed have produced new varieties only to return in the third or fourth generation to their originals.

Moreover Dr. Thompson proclaims that he finds, in full harmony with our text, that the life is in the blood and that by blood reaction it can readily be determined which animals belong to a certain species and which do not. The custom heretofore has been to classify animals by their bones and nature, which has always been more or less unsatisfactory. The blood is now found to be the sure test and the speedy one.

Third and Fourth Generation

Notice, said Pastor Russell, a text which always seemed to us hard and cruel, but which we find, on the contrary, to be merciful and gracious. It reads, "I am a jealous God, visiting the iniquities of the parents upon the children unto the third and fourth generation of them that hate Me."

The life is in the blood. The law of heredity carries impurity and disease through the blood in micro-organisms. Were it not for the Divine provision that these small organisms of disease or blood impurity will die out in the third or fourth generation, our race long since would have been wiped off the face of the earth. The Divine arrangement that infectious germ diseases such as syphilis will die out in the third or fourth generation is a most merciful one.

Thus God shows mercy unto thousands of them that love Him and seek to keep the Divine commandments. Thus the theories of man crumble, one after another as the decades slip by and the have been doing for centuries.

DAFFYBILLS

Now, if the file in a rasping tone should call the singer a bore.

And the monkey would a nut from the vine, would the place just smooth things over?

If the house was full and the water drunk would the beer feel all around?

And if the waters could speak a day flow, how would Long Island sound?

If you board a ship at a shore hotel is the billon that you pay?

If a single car weighs several tons, how much does the whole subway?

Can a scavenger be a cheerful fellow when he's always in the dumps?

If the water pipes in a dance hall burst would the dancers die their deaths?

If a Harvard freshman rows in a shell, in what does the captain row?

If no more grows in the frozen North, what then does the Eskimo?

If a can mixed fire would a parachute? This stuff gives me a pain.

If a balling were a bubble shirt would the lily pad and a drug store do you think that the dogwood bark?

If a parrot can swear can a crow, too? Enough are we all grown up!

THERE'S as much difference in shoes as in anything else. Looks count for something; so do good workmanship and good materials.

You're always the judge of the shoes you buy, you know better after they are worn out than when you buy as to whether they're good shoes ---unless you buy Selz shoes.

When you buy a pair of shoes bearing the name Selz you get a guarantee of your satisfaction---that's what you want, satisfaction; and if you want to know WHEN YOU BUY, buy Selz shoes. Then be the judge.

The secret of the guarantee is that the shoe don't need it. The maker couldn't guarantee the wearer's satisfaction if they did.

We sell Selz shoes, because among other things the maker guar-
 tees us satisfied customers, that ought to be one reason for your wearing
 Selz shoes. Other reasons are that you'll find the latest models in this line
 and that they are better-than-usual fitters. They are made on scientific-

Reconciliation That Failed.
James VI. of Scotland—after-
ward James I. of England—in 1587,
being much perturbed by the con-
stant quarrels among his nobles, de-
termined to end all disputes by a
summary process of reconciliation.
Accordingly, having assembled the
nobles on Sunday, May 11, at Holy-
rood, in the hall of Sir James
Maitland of Thirskene, he drank to
them and caused them all to shake
hands. On the following day,
after banqueting them in the great
hall, he caused the noble of Angus, Mont-
rose, Mar and Glencairn, also the
master of Glamis and many others—
all deeply enemies to one another,
to march hand in hand to the
abbey from the place to the tower,
along the Canongate and then
street of Edinburgh to the town
cross, where the process and ladies
had a table spread with wines and
sweetmeats. Here they were
more drunk to their eternal undoing
and separated. But a few weeks
later they were lying in wait, as of
old, to kill one another.

MUCH TO BE TAKEN FROM

The racing program of the Interstate Fair to be held at Pensacola, November 4 to 11, is one of the strong features of the bi-centennial exposition. Races for some events for the week of November 4 aggregate more than \$2500. The racing program of the fair grounds, following are the events for each day:

We enclose herewith
check to pay for car of buggies just received.

You of course know how much we think of your buggies, in a general way, as this is the third carload we have had from you, but we want to say that the special order yellow buggy sent in this car is the prettiest job we ever saw, and your surreys are alright too.

Business here is not what it should be at this season, but we will send you order for another car load just as soon as we can sell half of the last car. Hope your business is good.

As ever, yours truly,
Signed, L. H. Holt,

STOP

And think for just one minute. Did it ever occur to you that your family and loved ones might not be as well and comfortably cared for after your death as they are now? This question should be foremost in the mind of every man or woman who has anyone dependent upon them.

The policies issued by the Mutual Benefit Life Insurance Company of Newark, N. J., solve this problem most admirably. They contain special advantages and privileges not combined in the policies of any other company, and for nearly 70 years have safeguarded the interests of their clients in a manner above reproach and worthy of recognition by the insuring public. Think this over on call on me for rates and full particulars, or write direct to Drewry & Rolston, Chattanooga, Tenn., State Agents for Tennessee, Alabama, and Mississippi.

Dothan Carriage Co.

Buggies, Runabouts & Surries.

We sell more buggies—from actual count—than any firm in South-East Alabama. Our record shows that we have sold at retail—not including wholesale—a solid carload of buggies in ONE WEEK.

How Do We Do This?

- 1st. We and our connections, buy for SIX LARGE STORES. Quantity enables us to buy right.
- 2nd. We have been in this business (buggies and wagons) for Twenty-five years. Experience has taught us what to buy.
- 3rd. We have the largest stock to select from, variety giving our customers opportunity to select any style or finish.
- 4th. We are exclusive dealers in Buggies, Wagons and Harness and in order to keep your future trade, Our Guarantee is Right.

Wagons.

We sell the "Mitchell" and the "Tennessee," in our judgment the best, based on experience in handling every make and brand of wagons sold in this section. We have never known of a "Mitchell Wagon" tire having to be Re-Set.

The "Tennessee," although sold at a Less Price, has a Guarantee that alone will sell it.

Harness

We are on the jobbers list in harness, having been placed there by the amount of goods bought, several years ago. This places us in position to sell at wholesale as well as retail. We would be glad to quote merchants prices at any time and guarantee to save them money.

We believe that our Special No. 7 Single Buggy Harness is the best value ever shown in Dothan.

Come to see us in our New Quarters and make yourself thoroughly at home whether you want to buy anything or not, we will always be glad to see you.

The health and strength of our ball player would not be maintained for a single day if they abused their stomachs—if they took for their meal, impure and inferior groceries.

Good food is as necessary to physique as training. So with long life. Unsatisfactory meals weary your poor stomach and strike the most vital parts of your body. They shorten your life.

Be sure you get the best in groceries—the kind we are compelled to sell, because, if we did not, we would lose our growing and extensive trade. Call and inspect our stock. It is not only the finest in town but it is the best selected.

St. Petersburg, Oct. 8.—Russia is negotiating with Turkey, in connection with Turkey's reported intention to declare grain embargo of war. Such action on Turkey's part would paralyze the Russia's export trade.

ITALIAN EXPULSION POSTPONED

Constantinople, Oct. 8.—The Chauvinist press still demands severe anti-Italian measures but the moderate press and the general public realize that the only possible course is to delay the war without delay. It is understood the Grand Vizier and the Minister of War are inviting mediation by the powers to secure peace and that in the meantime the execution of the decree of expulsion relating to Italians will be postponed.
